POST SHOW REPORT

20 21 22 MAY 2026

BIO PHARMA CITY, TASHKENT, UZBEKISTAN

Supported By

Jointly Organized By

Pharma Eurasia & MedTech Eurasia 2026 served as the definitive international business platform for pharmaceutical and medical technology professionals to engage in high-impact networking, strategic sourcing, and trade deliberations within the fast-growing Eurasian economic zone. Organized jointly by Tricornio Technologies, ACE Marketing & Tarde Fairs and Expo Tour Group, the 2026 edition successfully unified the dual pillars of healthcare manufacturing and clinical innovation under one roof. Hosted at the state-of-the-art Bio Pharma City, Ministry of Health, Republic of Uzbekistan, the event showcased a massive array of advanced products encompassing pharmaceutical formulations, APIs, contract manufacturing, high-speed packaging machinery, cutting-edge medical devices, diagnostics, hospital infrastructure, and a dedicated nutraceutical pavilion.

The exceptional turn out of 3000+ industry professionals from over 13 countries is a direct testament to the booming market potential and trade alignment within the CIS & Eurasian pharmaceutical and medical technology sectors. We are incredibly proud to have built a dedicated corporate arena where international healthcare manufacturers can engage directly with key distributors, procurement managers, and regulatory authorities to finalize critical cross-border trade agreements. Our team is strictly committed to amplifying this industrial momentum. Supported by host ministries and international trade promotion councils, the exhibition space is projected to expand significantly for the 2027 edition. We look forward to introducing more specialized technical zones, expanding our specialized match-making tracks, and hosting larger global buyer delegations to continue driving the \$6 Billion CIS pharmaceutical and healthcare trade corridor.
