Why Pharma Eurasia?

The Gateway Between Europe & Asia

Pharma Eurasia has been established as the international platform connecting global pharmaceutical manufacturers, investors, regulators and healthcare leaders with the rapidly growing markets of Central Asia, the CIS and Eurasia.

Hosted in Uzbekistan—one of the region's fastest-growing pharmaceutical manufacturing hubs—the exhibition provides a unique opportunity to build strategic partnerships, identify distributors, explore investment opportunities and expand market access across multiple high-growth economies.

Whether you are looking to enter new markets, establish manufacturing partnerships, or strengthen your regional distribution network, Pharma Eurasia offers direct access to decision-makers shaping the future of healthcare in the region.

WHY **INVEST** IN UZBEKISTAN?

VISION 2030

Pharma Eurasia Vision 2030

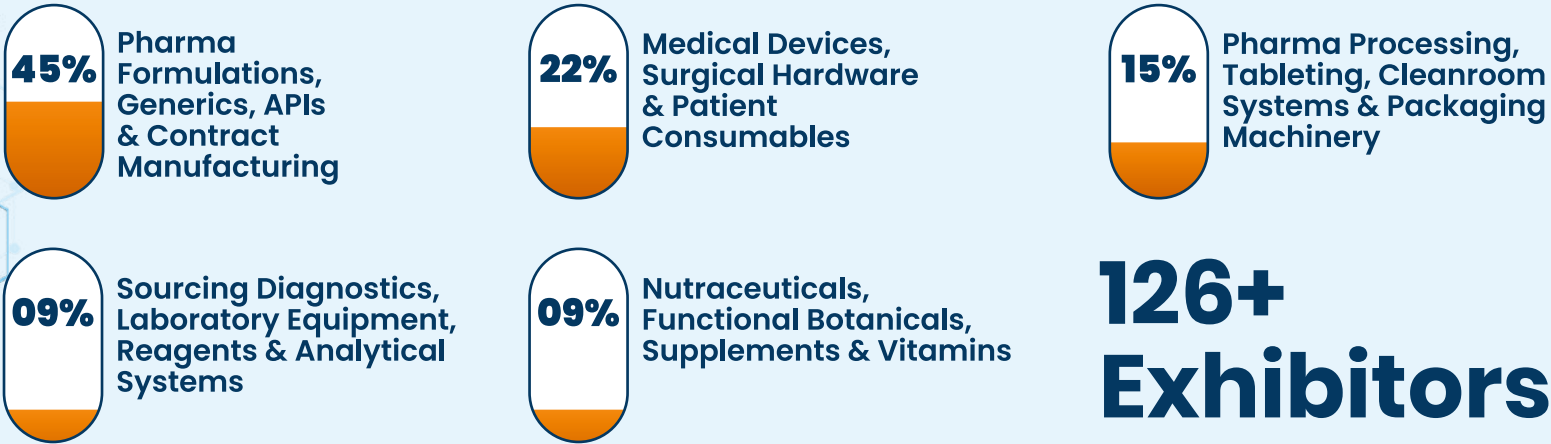

Become the leading pharmaceutical business platform connecting the CIS, Central Asia and Eurasia with the global pharmaceutical industry.

Our long-term vision is to create an internationally recognised ecosystem that integrates exhibitions, investment facilitation, regulatory collaboration, innovation, education and strategic partnerships, positioning Uzbekistan as the gateway for pharmaceutical trade and investment across the region.
